

**FOR IMMEDIATE RELEASE:**

**BYT Agent Releases Free Online Tools for Travel Agents**

Raleigh, NC, January 3, 2013 - Budget Your Trip has opened a portion of BYT Agent, its online suite of tools for travel agents, for free to registered agents ([www.budgetyourtrip.com/travelagent](http://www.budgetyourtrip.com/travelagent)). With new pricing plans, including a Free plan, travel agents can now benefit from a free Client Relationship Manager, Task Tracker, and Supplier Reviews.

The Client Relationship Manager (CRM) was designed from the ground up specifically for travel agents, and is the industry's easiest to use. Travel agents can quickly register on the website and then start using the CRM immediately. The integrated Task Tracker also helps agents stay focused on their clients' priorities instead of paperwork.

Additionally, all travel agents can now access the Supplier Reviews on BYT Agent for free when they register. Now, travel agents have a voice in the industry. In the past, companies have always been reviewed by consumers, but now travel agents can read and write reviews centered on their own interests such as commissions, customer service, and priority booking. Agents can learn more about which companies other agents like, and why.

The free online tools are immediately available to travel agents who register on the BYT Agent website ([www.budgetyourtrip.com/travelagent](http://www.budgetyourtrip.com/travelagent)). All of the tools are online; only a web browser is needed and there is no software to download.

In addition to the Free plan, even more tools are available in the Pro plan for \$15 per month (with a 15-day free trial). The Pro plan includes an Invoice Creator, Itinerary Builder, Group Trip Organizer, and more.

About Budget Your Trip

Budget Your Trip, established in January, 2009, is a comprehensive online travel resource for travelers, travel agents, and travel professionals. In addition to BYT Agent, the website provides free online travel resources for travelers.
